Subject: RE: FERC Request for Rehearing

Mayor: FYI, I just got an e-mail from Jamie Busen saying that she has read the request and has already written a breaking news story for WTAD and QNO. KHQA subscribes to the FERC eLibrary notice, so they probably have by now as well. Finally, I spoke with Don Crim at QHW earlier this week at Gary's request and promised that I would also send him a copy of the request when it was filed. I only said that because I knew that KHQA and WTAD (and QNO) would be getting it almost immediately and I didn't want QHW to be handicapped. Sorry if I jumped the gun. Joe Duesterhaus

Subject: Re: FERC Request for Rehearing

We can hand it to the council Monday night. I'd hold on the media. I have told them Monday.

John A. Spring
Mayor
City of Quincy
730 Maine Street
Suite 120
Quincy, Illinois 62301
217-2284545

Subject: FERC Request for Rehearing

FYI, everyone. Attached is a copy of the Request for Expedited Rehearing, including all referenced exhibits, filed with FERC this afternoon, 3/18/11, by Van Ness Feldman. This should probably be forwarded to the members of the Quincy City Council and the news media ASAP, given the high level of interest about when this was going to happen.
